

Why Your Business Deserves Better Security

When the network is down, your business isn't up. Small businesses are hit by 62 percent of all cyberattacks, about 4000 per day. It's time to get more serious about your security. Keep your business secure by detecting threats earlier, faster and with more ease. Here's why your business deserves Cisco security.

Your security experience simplified

Cisco SecureX helps organizations who may be feeling overwhelmed about security threats and the associated costs. It's our aim to help you become empowered. With Cisco, you can be confident that your security is in order so that you can concentrate on driving your organization forwards.

- Protect your users everywhere they go
- Greater protection with less effort
- Free your team for what's most important
- Consolidate without compromise
- Compliance made easier
- Frictionless security for your employees

Security that works as fast as you do

Things happen quickly in small businesses, so Cisco designed their security to match. With Cisco threat intelligence, you'll receive protection for previously unknown threats in under 10 minutes – the fastest time to remediation in the industry.

- Leverage the unrivaled breadth of intelligence from Cisco Talos
- Separate critical incidents from the noise, so you can act on what's important
- Update policies and implement new capabilities with just a few clicks

Security that grows with your business

Security should limit threats, not your business. Cisco SecureX helps you breathe easier. As your business grows and takes on new challenges, you won't have to keep changing your security strategy every six months. Take full advantage of the resources and expertise that Cisco includes in their products, to take your business to new heights.

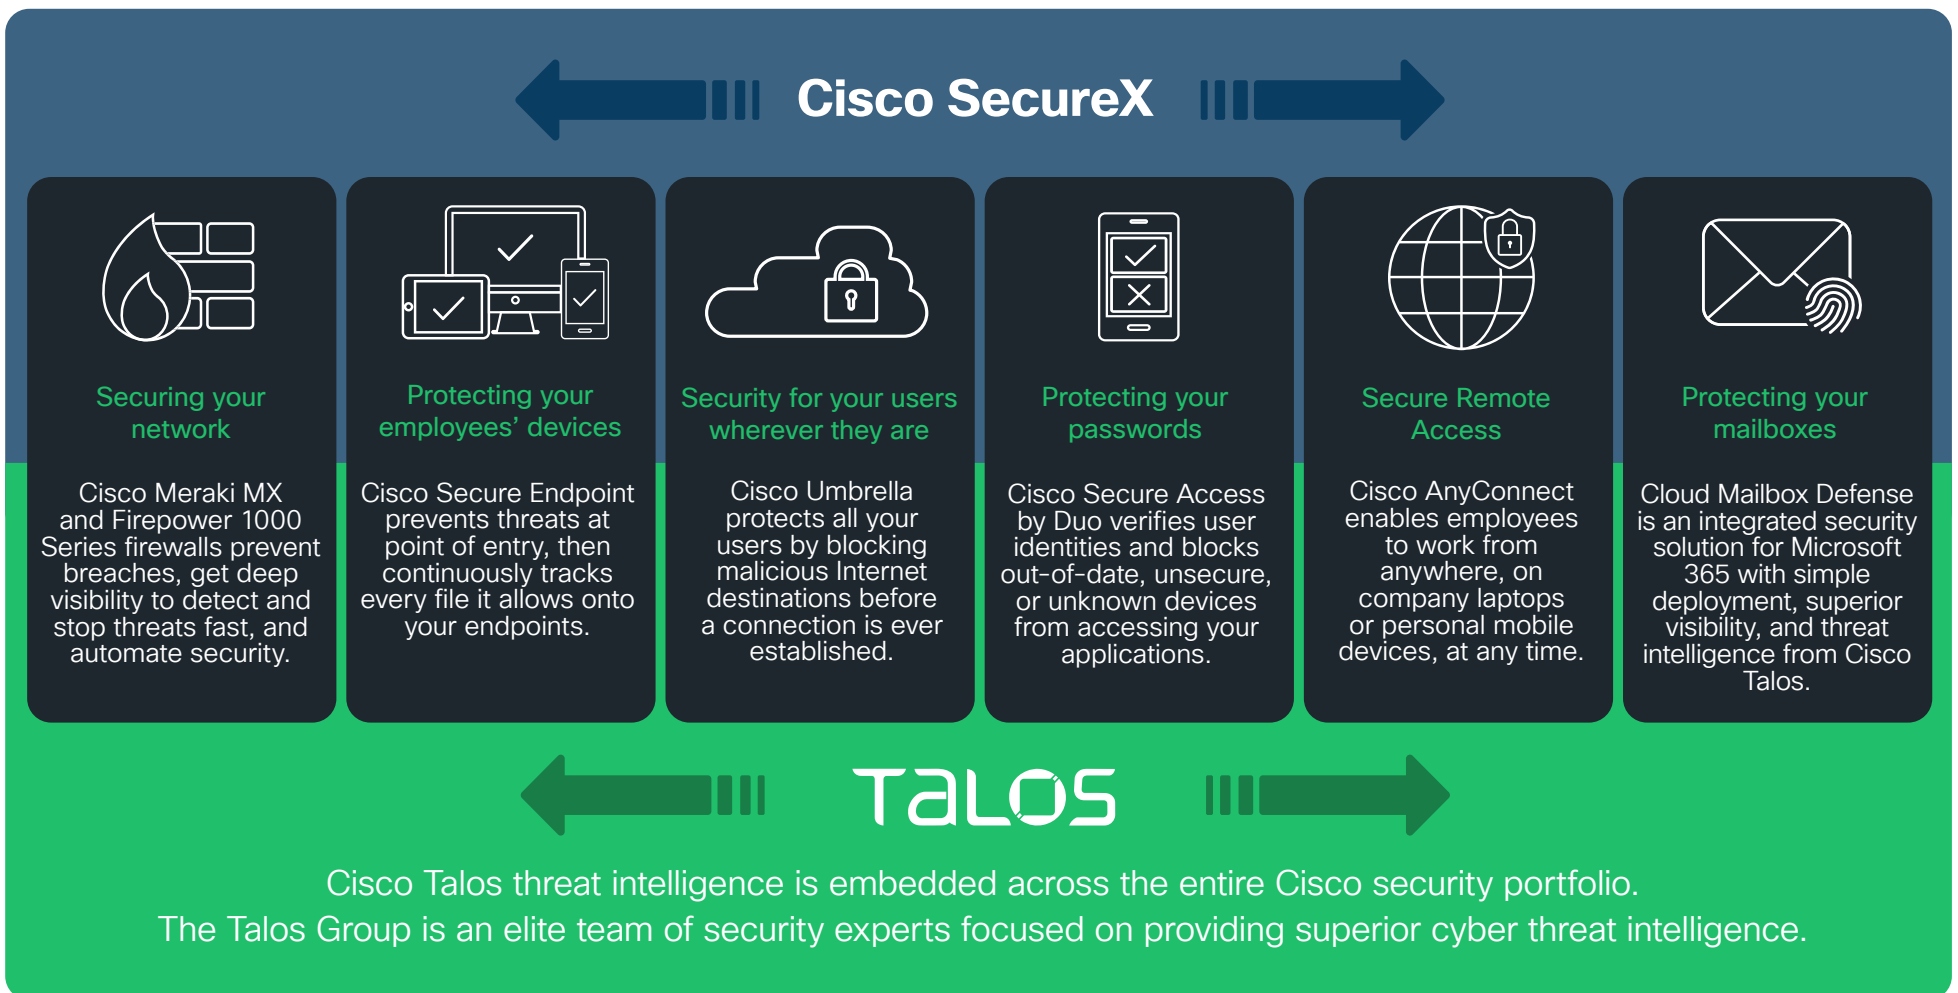

- Manage risk more efficiently as you grow
- Stay one step ahead with Talos threat intelligence that anticipates what's next
- Invest with confidence in security that's designed for the future of working.

Why Cisco Security for Small Business

At a Glance

The Power of Simplicity

Reducing complexity can make all the difference when it comes to security. Cisco's goal is to simplify everything for you, leaving you free to embrace your innovation and accelerate your success. Cisco SecureX helps reduce complexity with a unified view of your entire security system. SecureX is a built-in platform experience included with every Cisco Secure product. And its cloud-native so you can start experiencing benefits in 15 minutes.

What customers are saying

“It’s all on me. We want to make sure that the practice is safe, and we have the security to back up our data.”

– Dr. Jennifer Mertz, Owner, Grosse Pointe Orthodontics

“If it (an attack) does happen, we can find it quickly, shut it down, and contain it.”

– Mike Austin, CEO, Macon-Bibb County Housing Authority

“Post Firepower, I don’t have to worry about it (ransomware). Because I know that if I see it again, I can drill down into it quickly and see what device and what to do.”

– Jeffrey Wilson, IT Manager, The French Laundry
